Department telegram 889

Neither Embassy nor CAS has encountered any repercussions or evidence from official or unofficial sources of Canadian Ambassador's talk regarding missiles in Italy and Turkey.

This afternoon I sought out meeting with Ambassador and discussed with him our position and policy in this connection. I of course gave no intimation that he might have been taking unhelpful line, and with me he took no exception to our position. In fact he went out of his way to speak of success of President's action and his surprise and gratification at widespread measure of support it had evoked throughout world.

I will continue to maintain contact with Leger.
